PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering student with a strong **80% academic aggregate** and hands-on expertise in developing secure, full-stack applications. Proven capability in implementing strict **Role-Based Access Control (RBAC)** matrices and writing secure **SQL queries** to safeguard database environments. Equipped with analytical skills developed during an internship at Think Edges. Focused on leveraging a strong programming foundation in **Python** and **Java** to identify vulnerabilities and build resilient, secure digital systems.

TECHNICAL CAPSTONE PROJECT

Contactless QR-Based Food Ordering & Secure Management System

Full-Stack Web Application | Technologies: Python, JavaScript, SQL, Relational Databases

- **Access Control Architecture:** Engineered a role-based environment deploying strict **RBAC** mechanisms to isolate privileges between end-users, kitchen operators, and system administrators.
- **Secure Data Management:** Configured a secure administrative dashboard using parameterized **SQL querying** to cleanly aggregate, protect, and export sensitive financial and operational logs.
- **Vulnerability Assessment:** Conducted code-level vulnerability checks on customer-facing inputs and QR-code routing interfaces to mitigate structural session hijacking risks.
- **System Optimization:** Integrated an on-demand real-time synchronization workflow that eliminated data bottlenecks and successfully accelerated order processing speeds.

PROFESSIONAL EXPERIENCE

Technical Marketing Intern — *Think Edges*

- Analyzed platform data workflows and user requirements to evaluate and patch digital presentation inefficiencies.
- Collaborated closely with cross-functional team members to execute secure, targeted data tracking campaigns.
- Utilized analytical problem-solving to align ongoing outreach initiatives with internal database requirements.

TECHNICAL SKILLS

Security Specializations

- Role-Based Access Control (RBAC)
- Vulnerability Assessment
- Network Security Concepts

Programming & Scripting

- Python
- Java
- SQL Querying

Database Management

- Relational Databases
- Secure Data Handling

Web Development

- HTML5
- CSS3
- JavaScript

Core Competencies

- Analytical Thinking
- Problem-Solving
- Team Collaboration
- Adaptability

EDUCATION

Diploma in Computer Engineering

Dr. B.R. Ambedkar GMR Polytechnic, Rajahmundry, India

Score: **80% Aggregate** (Last 3 Semesters)

10th Grade (SSC)

Board of Secondary Education, Andhra Pradesh, India

Percentage: **91%**

LANGUAGES
