PROFESSIONAL SUMMARY

Detail-oriented aspiring Data Analyst with strong knowledge of Python, SQL, Excel and data visualization. Experienced in cleaning datasets, preparing dashboards and identifying useful business insights from data.

TECHNICAL SKILLS

Python, SQL, Pandas, NumPy, Excel, Tableau, Power BI, Data Analysis, Machine Learning, Java, Git, Linux

PROJECTS

Sales Data Analysis – Analyzed sales data using Python, Pandas and NumPy. Cleaned missing values, calculated key metrics and created visualizations to identify monthly sales trends.

Business Dashboard – Created an interactive Power BI and Tableau dashboard showing sales, customer and product performance. Used Excel and SQL for data preparation.

Student Performance Prediction – Built a basic machine learning model in Python to study factors affecting student performance and evaluated the model using standard metrics.

EDUCATION

Diploma in Computer Engineering, Government Polytechnic, Telangana – 2026, 86%

SSC, Telangana State Board – 2023, 91%

EXPERIENCE

Data Analytics Intern, Analytics Hub – Feb 2026 to Apr 2026. Prepared datasets using SQL and Python, created Excel reports and supported dashboard development.

CERTIFICATIONS

Python for Data Analysis, SQL, Power BI, Tableau, Microsoft Excel
